WHAT WERE YOUR HIGHLIGHTS FOR 2021?

First and foremost, I’m proud of our employees for keeping our people and communities safe. They navigated the COVID pandemic with extraordinary resilience and agility to deliver a record year for Holcim.

From a financial perspective we reached new levels of performance across all our key metrics, from net sales of CHF 26.8bn and over-proportional recurring EBIT of CHF 4.6bn, all the way to a net debt ratio of 1.4×. This is especially impressive for a year when we welcomed Firestone Building Products into the Group, accelerating our transformation to become the global leader in innovative and sustainable building solutions.

This was made possible by our empowered local leaders and high-performance culture. With our focus on impact, we delivered our Strategy 2022 one year in advance, setting solid foundations for our next era of growth.

We did this while putting sustainability at the core of our strategy, accelerating the deployment of our green building solutions, from ECOPact green concrete to smart roofing systems.

CAN YOU TELL US ABOUT “STRATEGY 2025 – ACCELERATING GREEN GROWTH?”

A key driver of our “Strategy 2025 – Accelerating Green Growth” is our goal to reach 30% of Group net sales in Solutions & Products by 2025. With our new level of performance, we have the firepower to invest in the opportunities ahead to become the global leader in innovative and sustainable building solutions.

We have started off fast with our agreements to acquire Malarkey Roofing Products in the United States, a leader in residential roofing systems, and PRB Group, a leader in specialty building solutions in France. Both brands are recognized in their respective markets for their leadership in innovation and sustainability with advanced solutions from energy efficiency to renovation.

Firestone is obviously also a key part of this journey with its advanced flat roofing systems for commercial applications, with a broad range of solutions from green to cool roofs. It is already delivering double-digit sales growth and we have started its expansion into Latin America.

Our future is Circular Construction. My vision is to build new from the old with recycled materials.

WHAT ABOUT THE OTHER BUSINESS SEGMENTS?

A Cement, ready-mix concrete and aggregates are integral to our strategy and vision. On our net-zero journey we are committed to leading their green transformation.

Today we offer the industry’s broadest range of green concrete ECOPact and green cement ECOPlanet, starting with a 30% lower carbon footprint compared to standard and local materials and can go all the way to carbon neutral.

We keep on investing in innovative low-carbon raw materials to expand our green product formulation, from calcined clay and carbonated olivine, all the way to recycled construction and demolition waste.
